मां आयुक्त, राज्य सामान्यक प्रवेश परीक्षा कक्षा,
तथा मां सचिव, प्रवेश नियामक प्राधिकरण,
८ वा मजला, नू एक्सेल्सियर इमारत,
ए. क्र. नायक मार्ग, फोट, मुंबई - ४०० ००१.

विषय : उच्च शिक्षण संचालनालयाच्या अख्यातीत व्यवसायिक
अभ्यासक्रमांच्या शैक्षणिक वर्ष २०२३-२४ मध्ये व त्यापूर्वी शैक्षणिक
वर्षांकाळांच्या राज्य सामान्यक प्रवेश परीक्षेचा अभ्यासक्रमावलम्ब.

संदर्भ : राज्य सामान्यक प्रवेश परीक्षा कक्षाचे पत्र क्र. उचिका-१३२२/सीटे-२३/ Syllabus/१६३०/२०२२, दिनांक १०/१०/२०२२

महोदय,

उपरोक्त विषयांत ग्रहणारे सादर करणात येते की, उच्च शिक्षण संचालनालयाच्या
अख्यातीत एकूण ८ व्यवसायिक अभ्यासक्रम असून सदरहू अभ्यासक्रमांच्या राज्य सामान्यक प्रवेश
परीक्षेसाठीचा अभ्यासक्रम तयार केलेले वर्ष खालीलप्रमाणे :

<table>

Contents of the Syllabus:

I. **Legal Aptitude and Legal Reasoning:**
   This subject will test candidate’s interest towards the study of Law, Legal aptitude and problem solving ability. Questions will be framed with the help of legal propositions and a set of facts to which the said prepositions have to be applied. Some propositions may not be true in the real sense. Candidates will have to assume truth of these propositions and answer the questions drawing well supported conclusions.

II. **General Knowledge with Current Affairs:**
   The topics such as History (Ancient, Medieval and Modern), Geography, General Science, Economics, Civics and the Current Affairs of the past One Year. The subject is to assess the knowledge of the recent happenings and awareness of the World.

III. **Logical and Analytical Reasoning:**
   The subject is to test the candidate’s ability to identify patterns, logical links and rectify illogical arguments. It will include wide analogies, completing arguments, drawing well supported conclusions, reasoning by analogy, applying principles or rules. Further the subject is to measure the ability to understand the structure, relationship and to draw logical conclusions about the structures. It includes reasoning deductively from the set of statements and rules or principles that describes the relationship among persons, things or events.

IV. **English:**
   This section will consist the questions on the areas like Vocabulary (Synonyms, Antonyms, analogies etc.) Proficiency (Idioms and Phrases, One word Substitution, Sentence Improvement and rearrangement, fill in the Blanks etc.) English Usage Errors (Common errors, Spotting errors, inappropriate usage of words, spelling mistakes etc.) English Comprehension with minimum two passages followed by Five to Ten questions that test reading and reasoning abilities.

- The Questions will be Objective Multiple Choice Questions with Four Options.
- There is No Negative Marking.
- The time allotted is 2 Hours i.e. One Hundred and Twenty Minutes.
- The Questions will be in English and Marathi.

**DESCRIPTION OF TESTS**

1. **4 x 10 Meters Shuttle Run Test:**
   
   **Equipment:** Two blocks of wood (21 x 21 x 41), stopwatches and marking powder.
   
   **Test Administration:** Two parallel lines are marked on the floor 10 meters apart. The two wooden blocks are placed behind one of the lines. The subject is asked to start from behind the other line. On the signal ready? Go, the timer starts the watch and the subject runs towards the blocks, picks-up one block, runs back to the starting line, places the block behind the starting line, runs back and picks-up the second block to be carried back across the starting line. As soon as the second block is placed on the ground, the timer stops the watch and records the time.

   **Scoring:** The time is recorded to the nearest 10s of a second as the score of the test item.

   **Rules:** Only one trial shall be allowed unless the teacher believes the pupil has not had a fair opportunity.

2. **Sit and Reach Test:**

   **Purpose:** This test measures the flexibility of the lower back and hamstring muscles.

   **Equipment:** Sit and Reach Box

   **Procedure:**
   
   This test involves sitting on the floor with legs stretched out straight ahead. Shoes should be removed. The soles of the feet are placed flat against the box. Both knees should be locked and pressed flat to the floor- the tester may assist by holding them down. With the palms facing downwards, and the hands on top of each other, the subject reaches forward along the measuring line as far as possible. Ensure that the hands remain at the same level, not one reaching further forward than the other. After some practice reaches, the subject reaches out and holds that position for at least two seconds while the distance is recorded. Make sure there are no jerky movements.

   **Scoring:** The score is recorded to the nearest centimeter or half inch as the distance reached by the hand. Some test versions use the level of the feet as the zero mark.

3. **Standing Broad Jump Test:**

   **Purpose:** This test measures the power of legs in jumping horizontal distance.

   **Equipment:** Floor, mat or long jump pit may be used, measuring tape, marking tape/chalk or a peg.
Test Administration:
A demonstration of the standing broad jump will be given to a group of subjects to be tested. The subject will be asked to stand behind the starting line with the feet parallel to each other. The subject will be instructed to jump as farthest as possible by bending knees and swinging arms to take off for the broad jump in the forward direction.

Scoring: The distance between the starting line and the nearest point of landing provides the score of the test. The best performance (maximum distance) out of three trials will be recorded in meters as the final score of the test.

4. Sit-Ups (Bent Knee):

Equipment: Clean floor, mat, or dry turf and stopwatch.

Description:
The pupil lies on the back with the knees bent, feet on the floor, and heels not more than 12 inches (30.48 cm) from the buttocks. The angle at the knees should be less than 90 degrees. The pupil puts the hands on the back of the neck with fingers clasped and places the elbows squarely on the mat, floor, or turf. The pupil's feet are held by his or her partner to keep them in touch with the surface. The pupil tightens the abdominal muscles and brings the head and elbows forward as he or she curls up, finally touching the elbows to the knees. This action constitutes one sit-up. The pupil returns back to the starting position with his elbows on the surface before he sits up again. The timer gives the signal Ready? Go!, and the sit-up performance is started on the word Go! Performance is stopped on the word stop. The number of correctly executed sit-ups performed in 60 seconds is recorded as the score.

Rules: Only one trial shall be allowed unless the teacher believes the pupil has not had a fair opportunity.

Scoring: Record the number of correctly executed sit-ups in 60 seconds.

5. Medicine Ball Throw:

Purpose: This test is used to measure the power of arms and shoulder girdles.

Equipment: A Medicine ball of 2 Kg for men and 1 Kg for women, marking materials and measuring tape.

Test Administration:

a) The athlete sits on the floor with his legs fully extended, feet 24 inches apart and the back against a wall.

b) The ball is held with the hands on the side and slightly behind the center and back against the center of the chest. The forearms are positioned parallel to the ground.

c) The athlete throws the medicine ball vigorously as far straight forward as he can while maintaining the back against the wall.

d) The distance will be measured from the wall to where the ball lands in meters.

e) Each subject will be given two trials.

Scoring: The longest distance will be measured in meters will be the score of the test.

DESCRIPTION OF TESTS

1. **4 x 10 Meters Shuttle Run Test:**

   **Equipment:** Two blocks of wood (21 x 21 x 4l), stopwatches and marking powder.
   **Test Administration:** Two parallel lines are marked on the floor 10 meters apart. The two wooden blocks are placed behind one of the lines. The subject is asked to start from behind the other line. On the signal ready? Go, the timer starts the watch and the subject runs towards the blocks, picks-up one block, runs back to the starting line, places the block behind the starting line, runs back and picks-up the second block to be carried back across the starting line. As soon as the second block is placed on the ground, the timer stops the watch and records the time.

   **Scoring:** The time is recorded to the nearest 10th of a second as the score of the test item.

   **Rules:** Only one trial shall be allowed unless the teacher believes the pupil has not had a fair opportunity.

2. **Sit and Reach Test:**

   **Purpose:** This test measures the flexibility of the lower back and hamstring muscles.

   **Equipment:** Sit and Reach Box

   **Procedure:** This test involves sitting on the floor with legs stretched out straight ahead. Shoes should be removed. The soles of the feet are placed flat against the box. Both knees should be locked and pressed flat to the floor— the tester may assist by holding them down. With the palms facing downwards, and the hands on top of each other, the subject reaches forward along the measuring line as far as possible. Ensure that the hands remain at the same level, not one reaching further forward than the other. After some practice reaches, the subject reaches out and holds that position for at least two seconds while the distance is recorded. Make sure there are no jerky movements.

   **Scoring:** The score is recorded to the nearest centimeter or half inch as the distance reached by the hand. Some test versions use the level of the feet as the zero mark.

3. **Standing Broad Jump Test:**

   **Purpose:** This test measures the power of legs in jumping horizontal distance.

   **Equipment:** Floor, mat or long jump pit or sand, measuring tape, marking tape /chalk or a peg.
Test Administration:
A demonstration of the standing broad jump will be given to a group of subjects to be tested. The subject will be asked to stand behind the starting line with the feet parallel to each other. The subject will be instructed to jump as farthest as possible by bending knees and swinging arms to take off for the broad jump in the forward direction.

Scoring: The distance between the starting line and the nearest point of landing provides the score of the test. The best performance (maximum distance) out of three trials will be recorded in meters as the final score of the test.

4. Sit-Ups (Bent Knee):

Equipment: Clean floor, mat, or dry turf and stopwatch.
Description:
The pupil lies on the back with the knees bent, feet on the floor, and heels not more than 12 inches (30.48 cm) from the buttocks. The angle at the knees should be less than 90 degrees. The pupil puts the hands on the back of the neck with fingers clasped and places the elbows squarely on the mat, floor, or turf. The pupil's feet are held by his or her partner to keep them in touch with the surface. The pupil tightens the abdominal muscles and brings the head and elbows forward as he or she curls up, finally touching the elbows to the knees. This action constitutes one sit-up. The pupil returns back to the starting position with his elbows on the surface before he sits up again. The timer gives the signal Ready? Go!, and the sit-up performance is started on the word Go! Performance is stopped on the word stop. The number of correctly executed sit-ups performed in 60 seconds is recorded as the score.

Rules: Only one trial shall be allowed unless the teacher believes the pupil has not had a fair Opportunity.
Scoring: Record the number of correctly executed sit-ups in 60 seconds.

5. Medicine Ball Throw:

Purpose: This test is used to measure the power of arms and shoulder girdles.
Equipment: A Medicine ball of 2 Kg for men and 1 Kg for women, marking materials and measuring tape.
Test Administration:

f) The Athlete sits on the floor with his legs fully extended, feet 24 inches apart and the back against a wall.
g) The ball is held with the hands on the side and slightly behind the center and back against the center of the chest. The forearms are positioned parallel to the ground.
h) The athlete throws the medicine ball vigorously as far straight forward as he can while maintaining the back against the wall.
i) The distance will be measured from the wall to where the ball lands in meters.
j) Each subject will be given two trials.

Scoring: The longest distance will be measured in meters will be the score of the test.
